March 20, 2014

Dear Brothers and Sisters,

We at The Labor Council for Latin American Advancement proudly endorse United Way Worldwide and their efforts to improve education, income and health conditions for all. LCLAA encourages everyone to support the work that United Way has done for the past 125 years and to join them in the mission to "LIVE UNITED".

LCLAA applauds the United Way commitment to diversity and the inclusion of all people of color and the work that they do. Latinos have some of the highest dropout rates, unemployment rates as well as the lowest access to healthcare coverage in the United States. We must then value United Way's pledge to improve education, income and healthcare all across our county. However, their work does not stop at our boarders –it reaches far and wide with early learning and parent engagement initiatives in Central and South America.

We look forward to continuing to collaborate with and support this renowned organization that "thinks globally and acts locally". Everyone should look to volunteer their time and contribute their support to the various United Way campaigns. We agree that only together will we be able to collectively and effectively address the issues of our growing community.

Sincerely,

Milton Rosado

Milton Rosado, National President
