Dear UAW Brothers and Sisters:

In a country where economic inequality gets worse every day and our ability to bridge that gap is challenged by global and domestic economic forces every day, we have a responsibility to do our part to support community programs that are dedicated to helping those in need.

For decades, the UAW and the United Way have worked together to deepen and broaden access to resources to help millions facing economic adversity and uncertainty.

Our members continue to benefit from the United Way's help across the country in the event of plant closing, strike or layoff when the United Way's assistance activating needed services gives a measure of comfort to our UAW families and their communities in otherwise very stressful circumstances.

When organized working people and the United Way join forces, we are truly able to make a difference in the lives of many through the act of donating in solidarity with these goals.

I encourage all of our members to give to the 2015 United Way campaign so that together, we can truly make a difference.

In solidarity,

A handwritten signature in cursive script that reads "Dennis Williams".
